

TRUE STORIES - REAL RESULTS

Protecting Your Business. Protecting You.

Don't Take Our Word For It.

Here Is What Our Clients Have to Say!

"WeatherData's expertise and information protocol played a significant role in ensuring employee safety and customer service."

Daryl Duquette,
Manager, Rail America

"Our professional relationship has extended nearly 15 years now. In numerous emails and phone calls following storm events, our listeners tell us they turned around and avoided oncoming wind, flood, lightning and hail threats because they had detailed street-scale information when they needed it most which is always "now." Thanks for a great product and great support as well."

Brad E. Barton,
Chief Meteorologist,
KRLD Radio

"Personally, I'm thrilled with WeatherData. They are user friendly, very gracious and extremely accurate, and I don't pay compliments like that lightly."

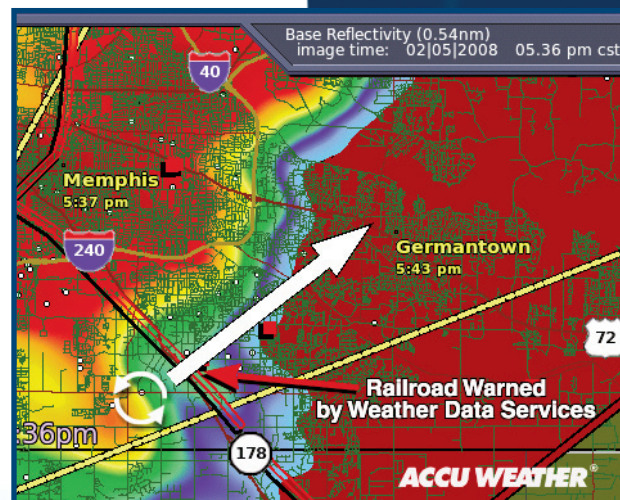

Ethan Saliba, Ph.D., ATC
Head Athletic Trainer
University of Virginia

"The information from WeatherData gave us a chance to prepare proactively and adjust schedules."

Frank Walters
Athletic Director
Washington, D.C. Public Schools

"Rich was all over it, he did a great job! We had plenty of warning time, and we had folks in position to cover. You all did a great job, thank you very much!"

Danny Poole
Director of Sports Medicine
Clemson University Athletics

"[A weather competitor] convinced us to put one of their systems next to WeatherData's for a three month side-by-side comparison. After two weeks, we told [the weather competitor] to remove their computer. It wasn't even close."

- Rick Lederer,
AVP Network Operations,
BNSF Railroad
